

January 21, 2022

Dear Vytec® Siding Products Customer:

We sincerely thank you for your continued support of Vytec® during these ongoing challenging times. Our whole team continues to be committed to delivering you the best quality and service possible, and we are truly appreciative of your business.

As we enter 2022, we continue to see the costs of raw materials, and skilled labor across our supply chain rise beyond our control with limited ability to mitigate. Raw material costs, have risen above our original expectations as a direct result of the continued high market demand and material availability challenges. These factors require us to announce a price increase.

Prices will increase up to 10%, effective with orders received beginning March 14, 2022.

All orders *and shipments* after March 13th will be billed at the new pricing.

New price sheets with specific details will be available in March. All orders will be subject to current lead times and will be shipped at our plants' discretion.

Please reach out to your local Territory Manager or Regional Manager should you have specific questions. Thank you again for your strong support of Vytec Siding Products.

Sincerely,

Doug Pietrick
Vice President, Exterior Product Sales
